

Power BI for Professionals

Get ready for the future and learn how to create and share powerful eye-catching interactive dashboards that gets your message across in an instance by turning data into insight.

9 - 10 January 2023

This is an **interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.

- ✓ Strictly limited number of seats to ensure maximum learning and experience for all delegates
- ✓ Thorough and customised program to address current market concerns
- ✓ Provision of a digital certificate to delegates at the end of the training

KEY BENEFITS OF ATTENDING

In this workshop, you will find out how to:

- **CONNECT** to a plethora of various data sources anywhere, anytime.
- **TRANSFORM** data from multiple sources into a cleansed data model using the Query Editor
- **CREATE** a robust data model by designing relationships and DAX calculations
- **DEVELOP** impressive, visually rich, and interactive reports and dashboards that will wow your audience
- **EXPLORE** your business data intelligently and **FIND** new insights by using the power of artificial intelligence, cross-filtering, drill-through, drill-up, and bookmarks
- **SHARE** your dashboard in the cloud

Requirements:

- Microsoft Windows
- Microsoft Excel
- Free download of Power BI desktop
- Basic knowledge of Excel
